dariushay@gmail.com

CODING LANGUAGES

HTML, CSS, JAVASCRIPT, JQUERY, NODE.JS., React.js, Express.js, MySQL, Sequelize, MongoDB, Handlebars.js

EDUCATION

UCF Coding Bootcamp – 2020 – present

Full Sail University Recording Arts Bachelor of Science – 2016-2018 (Graduated as salutatorian)

PROJECTS

We the People – In this project I worked with 3 partners and created this website which displays news of government officials. https://raquellee.github.io/we_the_people/

Weather Dashboard – In this project, I created a website that displays current weather and a 5-day forecast of any searched city. https://dariushay.github.io/weather-dashboard/

MED Stocks – In this project a user can create an account to search for the latest stock information in a desired stock company. I contributed to the full stack creation and deployment of this site. https://medstocks.herokuapp.com/
